

# CONTROL 338 230V

Equipment for external activations.

## Technical specifications

Power supply (Vac)	230
Max absorbed power (VA)	10
Max. external lamps load (W)	1500
Operating ambient temperature	-20°C +55°C
Protective fuse	Main circuit power
Quick-fit connector	Genius 5PIN receivers
Terminal board inputs	Power supply/ Lighting lights Push-button/ Input for pulse from control board blinker
Terminal board output	External lamps 230Vac 1500W Max.
Function logic	4 operating modes
External lamps lighting time	Programmable from 5 sec to 10 minutes
Sensor light sensibility	Trimmer adjustable
