

## LYNX 03

With transformer  
in waterproof box.

### Technical specifications

Power supply (Vac)	230 (+6% -10%) - 50 Hz
Potenza absorbed power (W)	3
Max. Motore load (W)	80
Max. accessories load	24 Vdc 500 mA
Max. blinker load	24 Vdc 15 W Max.
Operating ambient temperature	-20°C +55°C
Protective fuses	2
Function logics	Automatic/Step by Step
Opening and closing time	Through self-learning during programming
Pause time	Through self-learning during programming
Thrust force	Two levels selectable through dip-switch
Terminal board inputs	Power supply 22Vac/Batteries power supply/Start/Close only inputs/ Stop/Opening and closing safety devices/Opening and closing limit-switches
Quick-fit connector	Genius 5 PIN receivers
Terminal board outputs	Accessories 24 Vdc power supply/Motor 24Vdc/Blinker 24Vdc/ Indicator light -Courtesy lamp 24 Vdc
Selectable functions	Electronic clutch/Automatic closing/Slow-down on opening limit-switch/ Condominium function/START command function/Slow-down time/ Selection of courtesy light or indicator light/Limit-switches selection
Characteristics of optional Batteries	12V - 4 Ah/dimensions 90x70x108 mm
